

Philosophy

Associate in Science Degree (A.S.) with Guided Career Path for Philosophy

At a Glance

Philosophy uses the tools of logic and reason to analyze the ways in which humans experience the world. It teaches critical thinking, close **reading**, clear **writing**, and logical analysis; it uses these to understand the language we use to describe the world, and our place within it.

The Statewide Articulation Reporting System (STARS) will provide very specific transfer information to specific majors at each state-funded four-year institution. Once a student chooses a major and a place of transfer, an individualized guide and contract can be created. The STARS website can be accessed from the CACC homepage at www.cacc.edu. You may also access STARS from the CACC Admissions Office. CACC also has designated Transfer Advisors.

NOTE: *The sample Guided Curricular Path below contains all the elements required for degree/certificate completion. However, courses may be offered or taken in other semesters so long as prerequisites are met and courses are available. Additional options may also be available. Courses may be available days, nights, hybrid, and online. Sample paths for part-time attendance may also be available. Please see an advisor. *Students must check with the Senior Institution to determine which courses are required.*
